

Program Synopsis for Pediatric Dentistry

Practical Reviews Pediatric Dentistry

Sponsored by: Oakstone Medical Publishing

Use the skills of some of the most outstanding scholars and practitioners in the field of Pediatric Dentistry today to cut through the mass of new information in the journals and to boil it all down to only that which is relevant to your everyday practice.

The flexible audio format enables you to efficiently use your time to learn while commuting, exercising, or during those few minutes of downtime that may occur during the day.

HERE'S WHAT YOU GET:

- Pediatric dentistry topics summarized and reviewed in convenient audio format.
- Printed QuickFlash Review cards with take-home pearls that reinforce the audio material and give you a valuable desktop reference for instant recall by subject.
- Earn continuing education credit from The American Academy of Pediatric Dentistry.
- Self-assessment quizzes to highlight key points and strengthen what you've learned.
- Color-tabbed dividers, a special subject index and a convenient binder to make retrieval of your materials quick and easy.

Accreditation Statement:

Educational Objective

This program is designed to provide pediatric dentists and others interested in pediatric dentistry with a regular overview of the most current, clinically useful information available in contemporary journals. Advances in the diagnosis and treatment of primary and comprehensive preventive and therapeutic oral health care for infants and children through adolescence, including those with special health care needs will be covered. It is designed to expand upon, reinforce and give additional perspective to the participant's own selection of journal readings.

Practical Reviews in Pediatric Dentistry is endorsed by the American Academy of Pediatric Dentistry.

To obtain credit, the quiz must be completed and returned to Oakstone Medical Publishing for scoring within 24 months of publication date.

Completed continuing education hours help meet the CDE requirements for many state dental boards, state and local associations and hospitals and clinics. Since criteria vary, participants are advised to check directly with the appropriate board or organization for applicability.
